369 active members

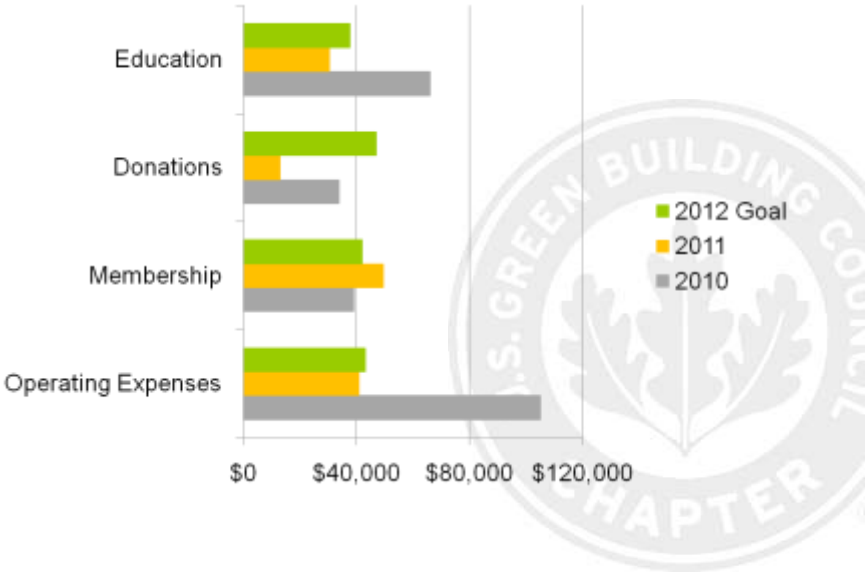

3,327 email subscribers

2,803 LEED credentialed
professionals

* as of November 2011

\$ Performance

2011-2013 STRATEGIC PLAN

Strategic Plan

GOAL 1: Organizational Excellence

Achieve organization clarity and excellence that supports building an innovative, high-performance, leadership organization that serves as a model for USGBC chapters nationwide.

Strategic Plan

GOAL 2: Education and Advocacy

COMMUNITY: Raise awareness of critical issues that influence the development of sustainable communities as well as implementing green building practices among a wide range of sectors within the building community.

LEGISLATIVE: Enable members to identify and effectively advocate for public policies that advance green building and the creation of sustainable cities and communities by providing training, resources and communication support.

PROFESSIONAL DEVELOPMENT: Expand training opportunities for professionals on the implementation of green building process and techniques while building a strong and effective professional credentialed workforce.

Strategic Plan

GOAL 3: Financial Stability

Provide an environment of financial stability that allows committees, branches and the board the financial resources necessary to function prudently and efficiently to maintain the stability of the Chapter's mission, programs and ongoing operations.

Excellence in Sustainability Scholarship

- Scholarship fund for ASU students enrolled in Law and Sustainability program
- Designed to encourage consideration of careers with industries focused on sustainability practices
- In honor of the victims and survivors of the 2011 Tucson shooting
